My Christmas Was In June

Beu Sisters

It was summer, I did love you true
Feelin' like a fool, fall passed by
I thought you'd fade away
But you left me with the painWinter calls for falling snow
You promised me you'd never go
And Christmas will be here
And Christmas will be hereIt's the hope I'm clinging to
My Christmas was in June
My Christmas was in June
When I was still with youDecember discovers, we were summer lovers
I wonder if you knew
Snow that freezes, ocean breezes blue
A place that we once knewWinter calls for falling snow
You promised me you'd never go
And Christmas will be here
And Christmas will be hereIt's the hope I'm clinging to
My Christmas was in June
My Christmas was in June
When I was still with youBroken pieces
Thrown on beaches by you
When you broke my heart in twoWinter calls for falling snow
You promised me you'd never go
And Christmas will be here
And Christmas will be hereIt's the hope I'm clinging to
My Christmas was in June
My Christmas was in June
When I was still with youThis December
All I'll remember is you
My Christmas was in June
My Christmas was in June
My Christmas was in June
My Christmas was in June
