

# My Christmas Was In June

## Beu Sisters

It was summer, I did love you true  
Feelin' like a fool, fall passed by  
I thought you'd fade away  
But you left me with the pain Winter calls for falling snow  
You promised me you'd never go  
And Christmas will be here  
And Christmas will be here It's the hope I'm clinging to  
My Christmas was in June  
My Christmas was in June  
When I was still with you December discovers, we were summer lovers  
I wonder if you knew  
Snow that freezes, ocean breezes blue  
A place that we once knew Winter calls for falling snow  
You promised me you'd never go  
And Christmas will be here  
And Christmas will be here It's the hope I'm clinging to  
My Christmas was in June  
My Christmas was in June  
When I was still with you Broken pieces  
Thrown on beaches by you  
When you broke my heart in two Winter calls for falling snow  
You promised me you'd never go  
And Christmas will be here  
And Christmas will be here It's the hope I'm clinging to  
My Christmas was in June  
My Christmas was in June  
When I was still with you This December  
All I'll remember is you  
My Christmas was in June  
My Christmas was in June  
My Christmas was in June  
My Christmas was in June
