# Cyclone Launch

## Fu Manchu

Left in the dust to sit down
How do I get this heap out of here
A sharp cut on a dust row
I'm looking down, it's now quite clearOverloadin' a full hand
Wire-fry a belt blown drive
Hay maker a quick turn
Holy-roller say goodbyeI knew you'd seen it my way
Ain't got anymore todayForever gone is a sky ride
Circle the world, it's a long time
Eliminate all highway
I got me a course in mindBurn like a mule throw
Watch a nova come alive
Sun burnin' a hole down
Hand movin' sink with timeI knew you'd seen it my way
Ain't got anymore today
