

# Cyclone Launch

## Fu Manchu

Left in the dust to sit down  
How do I get this heap out of here  
A sharp cut on a dust row  
I'm looking down, it's now quite clear Overloadin' a full hand  
Wire-fry a belt blown drive  
Hay maker a quick turn  
Holy-roller say goodbye I knew you'd seen it my way  
Ain't got anymore today Forever gone is a sky ride  
Circle the world, it's a long time  
Eliminate all highway  
I got me a course in mind Burn like a mule throw  
Watch a nova come alive  
Sun burnin' a hole down  
Hand movin' sink with time I knew you'd seen it my way  
Ain't got anymore today
