

# Feels Good

[Dr. Hook](#)

I was looking hard for love then I found you  
And when I found you, I just couldn't help but fall  
You wrapped your arms around me  
Ran your magic up and down me  
Now I can finally say I've got it all But I can't say it came easy but it's easy since it came  
Now I can finally just lay back and smile  
And I realize it may not last forever, but I sure do like this style  
'Cause it feels good having it real good for a while I tried so hard I feel like I deserve it  
To have someone I need as much as you  
The feel for love you taught me  
It comes each time you want me  
And leaves my body soft when you are through But I can't say it came easy but it's easy since it came  
Now I can finally just lay back and smile  
And I realize it may not last forever, but I sure do like this style  
'Cause it feels good having it real good for a while No, I can't say it came easy but it's easy since it came  
Now I can finally just lay back and smile  
And I realize it may not last forever, but I sure do like this style  
'Cause it feels good having it real good for a while Yes, it feels good having it real good  
Yes, it feels good having it real good  
Yes, it feels good having it real good
