

# Music Man (the D.j. Song)

Rufus

CHORUS:

Music man play your song for me

Music man fill my soul

Music man play a melody

Music man take control

I listen to you play your heartaches

I listen to you play your dreams

I listen to your every feeling

I wonder what you really mean

CHORUS

I sit alone at night and wonder

Could you be playin' just for me

I wait for you to play my future

I wait for you to set me free

CHORUS

In your little room you sit all night long

Playin' for someone that you cannot see

Do you wonder if someone really hears

What you're tryin' to say with your melody

CHORUS
