Travis

You can take a bus or catch the train
Let me tell you now you'll want to stay
 Sky was brown
 Trees were green
 Birds all sang a song in vain
 City in the rain (x3)
 We were sitting in the
Sitting in the city in the rain Won't you tell me what you came to see
 Came to see the university
I trust you had a very pleasant day
Actually it wasn't quite that way
 The sky was brown
 Trees were green
The birds all sang a song in vain
 City in the rain (x3)
 We were sitting in the
Sitting in the city in the rain
 Oh what fun we had
The weather wasn't that bad
 There just is no sun
Oh no here it comes If you find the time to get away
 Opportunity may come your way
 You can take a bus or catch the train
Let me tell you now you'll want to stay
 The sky was brown
 The trees were green
The birds all sang a song in vain
 City in the rain (x3)
 We were sitting in the
Sitting in the city in the rain
