Caught Dead

Papa Roach

I've got passion and a reason
And I won't neglect my emotions
Because I wanna spill, spill my guts
But I don't want to pick them up
I've got passion and a reason
And I won't neglect my emotions
I'm excited and I'm exploding
I'm ignited and I'm ready to go off
Rather be caught dead than weak
'Cause I'd rather be caught dead than be weak
And in my last days, I'll still be standing strong
'Cause I'd rather be caught dead than be weak
And in my last days, I'll still be standing strong
I wanna spill, spill my guts
But I don't want to pick them up
I've got too much pride and desire
To let this go, I'll walk through fire
I've got passion and a reason
And I won't neglect my emotions
Rather be caught dead than weak
'Cause I'd rather be caught dead than be weak
And in my last days, I'll still be standing strong
'Cause I'd rather be caught dead than be weak
And in my last days, I'll still be standing strong
I'd rather be caught dead than weak
Rather be caught dead than weak
'Cause I'd rather be caught dead than be weak
And in my last days, I'll still be standing strong
'Cause I'd rather be caught dead than be weak
And in my last days, I'll still be standing
