

Void of Fire

Metalium

In void of fireI stepped through the ring and I can't feel a thing
Can't wait to get to the other side
Pulled in with great force, I'm taking my course
Supersonic lightning rideFire
The void of fire my soul is burning
Fire, fire, fire, fire
Millennium is turningPast flying by I'm blinded by light
My power is forged from white cosmic heat
I'm feeling no pain I'm back in the game
Now I am the one in the driver seatFire
The void of fire my soul is burning
Fire, fire, fire, fire
Millennium is turningFire, void of fire
The void of fire my soul is burning
Fire, fire, fire, fire
Millennium is turningFire
The void of fire my soul is burning
Fire, fire, fire, fire
Millennium is turningFire, void of fire
The void of fire my soul is burning
Fire, fire, fire, fire
Millennium is turningInto the void
Into the void
The void of fire
