

Run Around Town

Sir Cadian Rhythm

I converse with myself
"Is this worth the toll on health?"
"Should I soldier on alone again
and hope the past goes dormant in my head?"
I've grown weary beyond repair Take the weight off of my shoulders cause darling I'm only
getting older and I don't want be your run around, your run around town no I can't bare to hear you sing
nor the silence lingering
there's a part of me that contemplates to stay
the other wants to lean the other way
I've grown weary, I see right through you Take the weight off of my shoulders cause darling I'm only
getting older and I don't want be your run around, your run around town no These synthetics have numbed me
I'm so tired I can't sleep
These synthetics have numbed me
I'm done crawling on my knees. Take the weight off of my shoulders cause darling I'm only
getting older and I don't want be your run around, your run around town no
