Made Up My Mind

Safire

I still remember when I was young
Someone always had me under their thumb
But now I'm breaking free, a feeling inside of me
Its my decision I'm taking control
My intuition is letting me know
Its time to put myself first on the list
I wanna give all I have to give
Gonna live like I wanna live
I'm taking chances I've never taken beforeChours:
I made up my mind, stop wasting time
I do what I want, I live on the line
No stopping now, gonna take what's mine
I draw the line, made up my mindGotta do whats best for me
Cause no one's gonna to get the best of me
Every step I take, every move I make
When the walls were tumbling down
I was the only one who was around
Thats when I started believing in meChorusI wanna give all I have to give
Gonna live like I wanna live
I'm taking chances i've never taken beforeChorus(Baby I'm gonna stop you
Never ever gonna let you go
I'm gonna make you mine)
I don't want you baby
(Baby I'm gonna stop you)
Baby I want to let you know
It won't work this time
(I need you baby)
Repeat (1x)
