## **Through Hell**

## We Are the Fallen

Are we alone?

Is there more than we believe in?

Haunting these walls

Shadows crawling out, revealing

Fear in me, Stays in meThe nightmares inside here

My dark fears

All in my head again

The nightmares I might hear

All my tears pull me through hell again wake in the night

And I pray that I've been dreaming

There's nowhere to hide

From this nightmare calling to me

Fear in me, Stays in meThe nightmares inside here

My dark fears

All in my head again

The nightmares I might hear

All my tears pull me through hell againThe nightmares inside here

My dark fears

All in my head again

The nightmares I might hear

All my tears pull me through hell againThe nightmares inside here

My dark fears

All in my head again

The nightmares I might hear

All my tears pull me through hell again
