The Servant

Kyshera

You have entrusted me, to serve your family
I treat them as my own
I've hired helping hands, the best across the land
To protect your home

Sometimes cruel's kind
But we know what's really best, best for you

'Cos we will take care of everything
While you are busy
If you give an inch away
Then we will take, take...

Now you all accuse me, of lies & robbery
But we caught your brother
If you dont like the way, I run this place today
Then you can find another

'Cos we will take care of everything
While you are busy
If you give an inch away
Then we will take

You brought me here
And you never checked
And sometimes, cruel's kind
We know whats really best

'Cos we will take care of everything
While you are busy
If you give an inch away
Then we will take, take, take, take you.
