

Angels Never Call

'Til Tuesday

I used to watch her sleep
An angel on vacation
I fell in love so deep
Far too far to mention She looked just like a thousand stars
When they came out at night
But when I looked inside her heart
I found it locked up tight Oh, angels never help you
'Cause angels always fall She smoked a cigarette
It only blurred my vision
I couldn't help but stay
With my first impression I'm wondering with every breath
What caused my fall from grace
I guess I beat myself to death
Against her lovely face Oh, angels never help you
'Cause angels always fall And angels
(It's simply that I never knew her)
Sometimes kiss you
(Wish to God that I had known)
Oh, but angels
(Everything that I remember)
Never call
(Is gone) Angels
(It's simply that I never knew her)
Never help you
(Wish to God that I had known)
'Cause angels
(Everything that I remember)
Always fall
(Is gone) And angels
(It's simply that I never knew her)
Sometimes kiss you
(Wish to God that I had known)
Oh, but angels
(Everything that I remember)
Never call
(Is gone) I used to watch you sleep
An angel on vacation
