Evolution

Clawfinger

Revelation part one
1, We're a superior life form
2, We think we're an intelligent race
3, We know that we've got all the right solutions
4, We've traveled to the moon
And explored new ground in space5, We've Improved and developed our senses
6, We've built up this land out of water and sand
And it looks so grand
7, We've created new logical groundbreaking
Thoughts and theories
8, We've got justice for all with blood on our handsThis is our evolution
And this is how we progress
Is this the final solution
Is this the way to successRevelation part eight
8, We can cure our diseases
7, We believe we're the state of the art
6, We know that our specie's so special
5, We think that we're incredibly smart
What good is smartness without any heart?4, We know how to run our machinery
3, We know how to get the job done
But we're not concerned with the outcome
2, We're naive to believe that we've come to the right
Conclusion, revolution
1, will we ever find the right solution?This is our evolution
And this is how we progress
Is this the final solution
Is this the way to success
Is this the way to success
