## Walkaway

## **Cast**

If you've heard all they got to say, you looked but turned away

Just walkaway, walkaway if you've said all you got to say

Now the words just slip away, just walkaway, walkaway, walkaway

That's what they say, what they say, you gotta walkawayIf you've played all the games they play, you played them yesterday

Just walkaway, walkaway, if you've been where they want to go Seen all they got to show, just walkaway, walkaway, walkaway

That's what they say, what they say, you gotta walkawayNow you must believe me, you never lose your dreams

So now you must believe me, we never lose our dreamsIf you've proved all there is to prove, got nothing left to lose

Just walkaway, walkaway, if you've done all there is to do There ain't nothing left for you, just walkaway, walkaway, walkaway
