Code Red

The Business

Advisory - the following lyrics contain explicit language:

News break on the radio
there`s a helicoptor raid
we`ve got a kidnap victim on our hands
The reason why is so unclear
afternoon - filled with fear
Brixton bound, open prison yardCause there`s a jailbreak in Brixton
you know this gang must be found
there`s a code red, alive or dead
one of our boys is out.....He has broken out so the newspapers say
"we`ve gotta stop these boys their dangerous"
Public enemy number one
the nation hides - their on the run
living life full to the end[Chorus]Fast approach comes the end
betrayed by a very good friend
back to a cell with walls that have no time
year have passed he`s done his time
there`s no reason that we can find
nows the time to let him go
