Easy Does It

Coverdale/Page

You said you needed love
To warm you in the night
So you gave yourself to strangers
Who left you crying at first lightYou think the world you live in
Doesnt notice you
But dont you worry, baby
Ill be there to comfort youTake it easy, easy
Easy does it, baby
Nice and slow
Ill take you anywhere the four winds blowWeep no more, my lady
Dont you cry
I cant paint your portrait
With those tears in your eyeBut, I can give you love
Every night and day
We will walk together
Sun and moon will light our wayTake it easy, easy
Easy does it, baby
Nice and slow
Ill take you anywhere the four winds blowTell you something
Youll understand
Grab a hold now, baby
And Ill lead you to the promised landMake you feel so good, make you feel alright
Chase away the shadows
And keep you warm at night
Ooh, Ill keep you warmTake it easy, easy
Easy does it, baby
Nice and slow
Ill take you anywhere the four winds blowGonna keep you smiling
And satisfied
Nothing but blue skies
On a magic carpet rideTake it easy, easy
Easy does it, baby
Nice and slow
Ill take you anywhere the four winds blowAnywhere the four winds blow
Ill take you there
Here we go, baby
Hold onNo more worry, no more pain
The sun is always shining
And it never ever rains

And it never ever rains
And it never ever rains
