

Strum

Kaskade

Throw away all the things you hesitate
Don't imagine all what you can forsake
All I want is what you can make
Don't destroy all the things at stake Try to think of a life at ease
Taking all of the things you please Baby, I know just what you need
Baby, I know just what you need
Sugar, don't let this love ever cease
Sugar, don't let this love ever cease Try to think of a life at ease
Taking all of the things you please Baby, I know just what you need
Baby, I know just what you need
Sugar, don't let this love ever cease
Sugar, don't let this love ever cease
