

Guilty by Association

F.T.T.W

You've been sanctified
And I've been tried
Guilty by association
You've been canonized
And I've been fried
Guilty by association
All the little loonies
With a salient obsession
Come out from the boonies
With their sharpies and their guns
And we're loaded with questions
Guilty by association
Guilty by association
You've been idolized

And I've been tried
(Spoken:) [I've been tried]
Guilty by association
You've been terrorized
And I've been fried
Guilty by association
All the little loonies
With a salient obsession
Come out from the boonies
With their sharpies and their guns
They're all loaded with questions
Loaded with questions
Loaded with questions
