History

Endless Blue

Here we are in place
staring face to face
Awkward arms embrace
A little taste of history
Clothes are on the floor
Weâ€™ve been through this before
A little more of history

And if you want to keep me
Youâ€™d better hold on tight
Donâ€™t look ahead too far now
Letâ€™s make it through the night
And when you canâ€™t release me
Your vacant eyes will stray
A bitter observation
Well Iâ€™m better off this way

Walking down the street
My heart is in my feet
Wondering when weâ€™ll meet
We canâ€™t repeat our history
Reaching for the phone
I canâ€™t leave this alone
The past few days have shown
We should have known our history

And if you want to keep me
Youâ€™d better hold on tight
Donâ€™t look ahead too far now
Letâ€™s make it through the night
And when you canâ€™t release me
Your vacant eyes will stray
A bitter observation
Well Iâ€™m better off this way
