

# Rot

## OCCID

Everything I need is not really what I want  
I wanna, I wanna, I wanna, I wanna  
I wanna really, really, really wanna see you die  
Everything I want, I cant have if left up to me  
Unaffected by all the bullshit you cause  
Unprotected, naked, so we see your flaws  
Violated, you must think that we don't see this  
Disrespected, just remember it's our ass you kiss  
Rot  
You don't like me, I hope you  
Rot  
Unjustified, you keep fucking with us, we are  
Hostile inside, we consider you a joke  
Hate magnified, soon you'll think that we don't see this  
Strip down your pride, soon you'll feel the force of all of us  
Rot  
Rot  
You don't like me, I hope you  
Rot  
I don't like you  
Can't you see this?  
Why won't you  
Leave me alone?
