

# Incubus

## Vulcano

The night comes you asleep  
And I look for you  
To your dreams come true  
Tearless and taken by my power  
Your dreams burning in this night  
In thousand orgy  
Fuck your soul and suck your force  
When you feel your body coming  
Call me Incubus - the luxury demon  
I'm the way you want in your own  
Illusion  
Fuckin' your soul like a bestial  
Sound  
Restless you awake to your dirty life  
Sure you like bein' in the paradise  
But in my paradise  
Call me Incubus
