## Throwing Muses

I see the sun rise over this wall  
I watch it break and slide  
See my name, see my name on the wall I tried to walk on this wall  
It fell right under my feet  
Now I only lean, only lean on the wall I throw an egg at this wall  
I watch it break and slide  
See my name, see my name on the wall See my name on the wall  
See my name on the wall
