

There's Nothing Better Than Love

Luther Vandross

I fell asleep last night
And I dreamed the night and almost half the day away
I just got up so that I could hear her say
She's still in love and no one can take her love away Ooh love wakes me up everyday
And I thought no one could ever make me feel this way
It feels me up every time I hear her say
She's still in love and no one will take her love away I wanna be love, there's nothing better than love
What in the world could you ever be thinking of
It's better by far so let yourself reach for that star
And go no matter how far to the one you love, to love And I mean all these words I said
You don't have to guess what's going on inside me head
Just try to know all the things that our heart says
Listen to love and always get love to lead the way Whenever you love, there's nothing better than love
What in the world could you ever be thinking of
It's better by far so let yourself reach for that star
And go no matter how far to the one you love You know for love I'd go anywhere
I would go there for love to the end of nowhere
It's for her love I would go, I would, I would And I would love to just spend all my time
With a girl who makes me feel her love is mine
Someone you see who would only dream of me
And she'd be in love just 'cause she'd wanna be She wanna be loved, there's nothing better than love
What in the world could you ever be thinking of
It's better by far so let yourself reach for that star
And go no matter how far to the one you love, the one There's nothing better than love
What in the world could you ever be thinking of
It's better by far so let yourself reach for that star
And go no matter how far to the one you love There's nothing better than love
What in the world could you ever be thinking of
It's better by far so let yourself reach for that star
And go no matter how far to the one you love
