Wasted

I Am the Avalanche

I finally found a way
To make it go away
Make all the things I say be cleverly stated
And I move away from here
And hardly ever turn my back
That works for miles and miles cause I'm wastedMaybe I
Baby I lied
But I'm much bigger than that nowI'm waking to your knees shaking
The whole towns quaking from the love we've been making
I learn to forget
It's so hard to forget
Like when that hair was wet(it's so hard to forget)Maybe I
Oh baby I lied
But I'm much bigger than that now
I'm wasted
And she's wasted
She's wastedMaybe I
Oh baby I lied
But I'm much bigger than that nowNo one cares
See the damage that we did
Are we much bigger than that now?
Are we much bigger than that now?
Are we much bigger than that now?
cause I'm much bigger than that now
I'm much bigger than that now
