

# Pass Slowly

Seether

I think it's time for a change  
'Cause things feel out of touch  
And I watched you walk away again  
Well this feels too much  
(Can you take it away?)  
And things won't go my way  
Now I'll to fade away my friend  
So pass slowly  
And carry me down  
Render me lonely  
When your not around  
I need to shake off this pain  
But courage takes too much  
So I have to walk away again  
Oh god I miss your touch  
(Can you take it away?)  
The way you keep me safe  
I won't let you fade away my friend  
So pass slowly  
And carry me down  
Remember me only  
When your not around  
Oh. yeah  
Can't you stay a while longer?  
Oh. yeah  
Won't you stay?  
God please stay and  
Pass slowly  
And riddle me down  
Render me lonely  
When your not around  
So pass slowly  
Let me down easy  
Render me lonely  
When your not around
