Find Love

Shawn Mullins

Stop regretting all the years inside your head
Not forgetting there's some truth to what you said
And you know now that I gotta keep rollin on
Here we go now, we're driving through another dawnSomeday youll find love
Someday youll find love
Someday youll find loveWhen its over, do you try to build another fire?
Or do you pour water on the coals? Are we both just too damn tired?
And you know now that I gotta keep movinon
Here we go now, everything we had is goneAnd someday youll find love
Give you everything you need
And someday youll find love
Give you everything you need
Someday youll find love, find loveFor the record, I never said that you should stay
What you were after, I never had to give anyway
And you know now, I gotta keep rollinon
Here we go know, Im drivin through another dawnAnd someday well find love
Give you everything you need
And someday well find love
Give you everything you needAnd someday well find love
Give you everything you need
And someday well find love
Give you everything you need
