

Don't Let Them Get in Your Head

Jenny Wood

I cant forget
What i am not
in all that
i regret
it screams my name
cover my ears
til i cant hear myself
it gets so dark out in in the world
the sharks have hands
they pry me open for the pearl
i can hear you whisper
dont let em get in your head
dont let them
dont let em get in your head
dont let them
when we were free
we knew exactly who we wanted to be
they had no power
slept in our cars with our hearts on our sleeves
the deserts bigger than we planned
where is the water?
the devils blowing all the sand
and its filling up the river
(dont let em get in your head
dont let them
dont let them get in your head
dont let them)
Dont let them get in your head
dont let them
dont let them
Dont let them get in your head
dont let them (x2)
