One (blake's Got A New Face)

Vampire Weekend

Occident out on the weekend
That's the way that we relax
English breakfast tastes like Darjeeling
But she's too cute to even ask
Blake's got a new face
(Blake's got a new face)
Blake's got a new face
(Blake's got a new face)
Blake's got a new face
(Blake's got a new face)
Blake's got a new face
(Blake's got a new face)
Nastiness will cause your doom
Turn and walk back to your room
The precedent's already set now
You spend a week in Old San Juan
Spanish brownstone with chairs of leather
And Spanish waves to roll along
Blake's got a new face
(Blake's got a new face)
Blake's got a new face
(Blake's got a new face)
Blake's got a new face
(Blake's got a new face)
Blake's got a new face
(Blake's got a new face)
Majesty's not overheard
Cryptographs can't stand the word
Blake's got a new face
(Blake's got a new face)
Blake's got a new face
(Blake's got a new face)
Blake's got a new face
(Blake's got a new face)
Blake's got a new face
Oh, your collegiate grief
Has left you dowdy in sweatshirts
Absolute horror
