

Make It Happen

Somethin' for The People

Ooh, let's make it happen
To make it happen tonight
Ooh, let's make it happen
To make it happen tonight Ooh, she wants me to stay
Like Johnny Gill I guess I read her the right way
So I take another sip from my wine
Tuck in the couch and recline, wait for the next move
Turn of the box, turn on the lights and start to groove She needs to be touched by a real man
She needs to be loved and here I am
Before I start tappin', she looks me in my eyes
And she says, "Let's make it happen" Ooh, let's make it happen
To make it happen tonight
Ooh, let's make it happen
To make it happen tonight Oh, she leads me to the bedroom
I look back and now I'm looking for head room
As we start to lounge I think of all the things
Gone when down and I frown
But it's still with pleasure 'coz I'm about to find
A treasure chest She needs to be touched by a real man
She needs to be loved and here I am
Before I start tappin' she looks me in my eyes
And she says, "Let's make it happen" Ooh, let's make it happen
To make it happen tonight
Ooh, let's make it happen
To make it happen tonight Listen all I wanna do is just get in there
All I wanna do is make you come back for more
All I wanna do is just get in there
All I wanna do is make you come back for more, baby Ooh, let's make it happen
To make it happen tonight
Ooh, let's make it happen
To make it happen tonight Ooh, let's make it happen
To make it happen tonight
Ooh, let's make it happen
To make it happen tonight We can do it home now
Get in the room, oh, baby Ooh, let's make it happen
To make it happen tonight
Ooh, let's make it happen
To make it happen tonight
