Necrosadist

Blasphemy

Baphomet leads unholy lust In darkness
I only fuck Through eternal
searching for the true corpse of my lust
Black Mass and fornications near the searing lake of fire Unholy might doth bring Blasphemous Alterations
[chorus] Dance of the Dead, with sabbatic goats
Needled death of suicide, blessed by the gods
Vaginal Lacerations, an orgy with the dead
Awaked by the dawn, I put back the dead
Sodomy of the dead will reign
Smearing of impurified blood
Screams and eternal tortures calling from the grave
My eternal Misery must be fed
