Feather

X Ambassadors

Take it out on me
Try to help out, you push back, you push back
You take it out on me
No matter what, you know that, you know thatI will lift you up
For now and forever
I will lift you up
'Til you're light as a feather
I know times are tough
When you're under pressure
I will lift you up
'Til you're light as a feather
I will lift you upI know you need somebody
Try to act like it's alright, it's alright
'Cause when you need somebody
No matter what, you know I, you know II will lift you up
For now and forever
I will lift you up
'Til you're light as a feather
I know times are tough
When you're under pressure
I will lift you up
'Til you're light as a feather
I will lift you up(I will lift you up)
(I will lift you up)
(I will lift you up)I will lift you up
For now and forever
I will lift you up
'Til you're light as a feather
I know times are tough
When you're under pressure
I will lift you up
'Til you're light as a feather
I will lift you up
