Shadow Man

Mankind Is Obsolete

Asleep in black, there's no light in the crack
The crooked fingers for you
No, don't ya dare say a prayer, it's just the nights in your mare
Oh, the long forever you'll do
No mercy, no coming back
No mercy, forever fade to black
Oh, where's the God that made you?
Oh, you're superman going down forever to never land
Oh, where's the God you pray forsaken again?
Never knew forever the shadow man
Oh, free at last with a heart in the black
Forever shadowing you
Don't you swear to the terror that your God never cares
Oh, come on, whatever your do
No mercy, no coming back
No mercy, forever fade to black
Oh, where's the God that made you?
Oh, you're superman going down forever to never land
Where's the God you pray forsaken again?
Never knew forever the shadow man, the shadow man
Oh, where's the God that made you?
Oh, you're superman going down forever to never land
Where's the God you pray forsaken again?
Never knew forever the shadow man
[Incomprehensible]Where's the God that made you?
Oh, you're superman going down forever to never land
Where's the God you pray forsaken again?
Never knew forever the shadow man
Where's the God that made you?
Oh, you're superman going down forever to never land
Where's the God you pray forsaken again?
Never knew forever the shadow man
