Technicolor

Colton Dixon

Majesty, show me your design
Give me clarity, open up my mind
Imagination has no place for fear
Speak to me, teach me, make it clearWe just wanna, we just wanna see Your technicolor
We just wanna, we just wanna know You and discover
Oh Lord, come show us what we can't see with our eyes
We just wanna see, just wanna see the world
In technicolor
Change the view, redirect my sight
Make it new, show me what it's like
Gotta hope, gotta love, gotta fix my eyes
On the stars, on the sun, on the open skyWe just wanna, we just wanna see Your technicolor
We just wanna, we just wanna know You and discover
Oh Lord, come show us what we can't see with our eyes
We just wanna see, just wanna see the world
In technicolor
In technicolor
In technicolor
In technicolorWe just wanna, we just wanna see You
We just wanna, we just wanna know You
Oh Lord, come show us what we can't see with our eyes
We just wanna see, just wanna see the world
In technicolor
We just wanna, we just wanna see Your technicolor
We just wanna, we just wanna know You and discover
Oh Lord, come show us what we can't see with our eyes
We just wanna see, just wanna see the world
