

All Fall Down

Good Riddance

give me sensibilities without ambition
give me accolades i've done nothing to collect
then you spread your plague of ignorance across the planet earth
robbing us of any self respectit's a plan these are ways
to a person we all fall down
unless we rise as one and resist the rightwhen we cease to question war as entertainment
and christian battle hymns will keep us pacified
you can tie a yellow ribbon 'round your cock boy
you're just along for the ride we all fall down
