

# Swamp Song

## Sulek

Way down South where the swamp lands grow  
I was messing where nobody goes  
fishing for my dinner in a craw daddy bed  
I fell in and I broke my neck  
when down from from the bottom of the murkey depths  
a girl stood up and stole my breath  
she said "Hey mon ami, gotta come with me  
don't be alarmed but you got something i need  
I'm happy to have met you, my name is Jess  
I think it's time we left"

(Chorus)

Tell my family, tell my kin  
I won't be coming home again  
The grim reapers name is Jess  
she's been fair and I feel quite blessed

Eyes like fire and skin like ice  
Sweet water and head lights  
guiding our way to a secret hole  
to a place where she'd take my soul  
from the land of the living  
to the land of the dead  
When I heard this no tears were shed

The worms conspire  
the life I had now has expired  
bathed in fire  
to live again is my desire

(Chorus)

Tell my family, tell my kin  
I won't be coming home again  
The grim reapers name is Jess  
she's been fair and I feel quite blessed

Like a candle my flame is out  
certain of this  
there is no doubt  
There's just one thing that remains to be known

will I float like a log or sink like a stone!

The worms conspire  
the life I had now has expired  
bathed in fire  
to live again is my desire

(Chorus:)

Tell my family, tell my kin  
I won't be coming home again  
the grim reapers name is Jess  
she's been fair and I feel quite blessed
