

Party On

Funeral Dress

another lonely night at home
track of time completely gone
still the end is very near
i'm gonna get right out of herethings won't seem so dumb
when i stop feeling numb
i'm marching with one goal
all for one and beer for allout of my way, i am going to the party
no i won't stay at home
out of my way cause i'm going to the party
i'm gonna party all night longparty on, party on, party on,
party on, party on, party on,
beer and whiskey all night long,
party on, party on, party onwhen the sun starts a new day
all the vampires hide away
unstable and shaking hands,
i'm gonna make a standjust listen and hear me out
don't do it out of pride
drugs, girls or lemonade,
beer is my partydateout of my way, i am going to the party
no i won't stay at home
out of my way cause i'm going to the party
i'm gonna party all night longparty on [x4]
