

# A Last Farewell

## Beseech

My last second and angel came  
time has come to say goodbye  
a coldness began to creep inside  
we must leave before the night  
tears started to fall like autumn leaves  
now it's time to go[Chorus]  
A last farewell this day  
when the angel came for me Where your soul should belong  
what if it's not the world I dreamt of  
there is no way back  
I'm afraid of what will come  
Now you'll face your sins[Chorus]
