

Use Your Mind

Extreme Noise Terror

I can't stand I can't think
I've had too much to drink
Forced down my pills and I can't wait
Gonna be fucked, don't wanna be straight!
Your view is restricted, so is your mind
You've got to break down the barriers and use your mind
I drink too much but I've nothing to lose
You stick to your fashion and I'll stick to my booze
Watching you preach has become rather bland
What do you expect to change with an 'X' on your hand?
