Dance

Ratt

Dance, dance, dance
Dance, dance, danceSlip and slide, take a ride you want the best of both worlds
Caviar, it's hard to find you're not a big city girl
You have dreams to make it big right off the Greyhound bus
Roses come from everyone you're gonna have yourself some funWhen it's all done you bite your tongue
You're feelin' so young no cover-ups
You're never alone if you hear the call
It's all for one and one for allBaby we can dance, dance, dance
Feel the heat of the rhythm, feel the heat of my hand
Dance, dance, dance
I see the way that you're movin', you need a little romanceYou have pride, just try and fight you'll take on anyone
Stupid pans and fans, no more laughs it's only ten to one
It's gettin' late to worry 'bout a date still you have no one
Twist of fate, you know it's too late you turn on everyoneWhen it's all done you bite your tongue
You're feelin' so young no cover-ups
You're never alone if you hear the call
It's all for one and one for allBaby we can dance, dance, dance
Feel the heat of the rhythm, feel the heat of my hand
Dance, dance, dance
I see the way that you're movin', I think we have a chanceWhen it's all done you bite your tongue
You're feelin' so young no cover-ups
You're never alone if you hear the call
It's all for one and one for allDance, dance, dance
D-d-danceDance, dance, dance
Feel the heat of the rhythm feel the heat of my hand
Dance, dance, dance
I see the way that you're movin' you need a little romanceDance, dance, dance
Feel the heat of the rhythm feel the beat of the band
Dance, dance, dance
I see the way that you're movin', I think we have a chance, chance
Dance, danceWe'll dance, dance, dance
We'll dance, dance, dance
