

Admit Defeat (2010 Demo)

Monuments

Time to open the curtains,
Think of our time tonight as uncertain,
Anything, everything can happen,
Just open your minds to a new plan for mankind. We got a new vision for the future,
A new formula to suture, If you live your life by fake laws and lies,
There'll never be a the future! Why the fuck do we fall to our knees
for the corporation,
Refuse the system because the system will re-use you.
we are the foundation.
Tear it down, if you do one thing just think of consequence,
of your life, the answers inside and now we'll stand together. There's nothing different about me and your
whatever you see is skin deep,
Everyone in this life is linked, by forces unseen.
There's nothing to gather, just take a look around and you'll get the picture,
If we do nothing we can be sure of one thing we'll refrain, fall into shade. Fatal lies, just so your feel secure
inside Question your life, why are we here believing nothing else,
Rise from the system, into a visions free, free your mind and soul.
We got this far just believe we can let go,
Why the fuck do we fall to our knees,
Why are we here believing nothing else.
Rise from the system, into a vision, free from this ignorance.
We got this far just believe we can let go.
Now lets start digging deeper uncover what we know
Falling from madness we'll break through as one,
I can tell you this great deception must have an ending.
We can make it stop
Everybody's gonna reach out from distress at take some action,
we'll restore the features that each of us, choose to reap from,
we say monuments are the future! Remember your way, just in case our light fades away.
Remember your way, just in case our light fades away.
Why the fuck do we fall to our knees for the corporation, rebuild the system Because the system will re-use you
We are the foundation.
