How Good It Feels

Lake Street Dive

I'm having so much fun on my own
I wanna tell somebody
I'm having so my fun all alone
I wanna let somebody know
How good it feels to be alone
How good it feels to be aloneI'm having so much fun by myself
I want the whole world to know
That I don't need anybody else
To row my boat
And how good it feels to have no body to make conversations with
And how good it feels to have no body to keep up relations with
How good it feels to be alone
How good I feels to be aloneOH but I get so afraid when it's late at night
I stare up at the sky looking for life
And then the cold comes over me and I know that this aint right
I remember nobody should be living alone
How good it feels to have somebody to make conversations with
How good it feels to have somebody to keep up relations with
How good it feels to have a friend be together again
How good it feels to have you
How good it feels
