

Red Eye

Kid Cudi

Hey!
Love, hate, play this game of give and take
Won't stay, we all make mistakes
I'll say, what a wonderful escape
I embrace
Hey, hey, hey
Things get crazy and I feel I'm losing my mind
I don't know what to do
I'm going insane and I really don't know why
There's only one thing to do
I'm floating through the night on a red eye, red eye
(Through the night on a red eye, red eye)
I'm floating through the night on a red eye, red eye
(Through the night on a red eye, red eye) (x2)
I can't understand, I don't understand it
The visions in my head
I just can't make sense of it (x2)

Cause I can never run
I can never run, I can never run
There's no use for it baby
I can never run
I can never run, I can never run
I'm so used to you baby
I can never run
I can never run, I can never run
There's no use for it baby
I can never run
I can never run, I can never run
I'm so used to you baby
[Hook]Ooo-oh! Ooo-oh!
Things get crazy and I feel I'm losing my mind, baby
Oh, oh (x2)
[Hook]
