

Right Now

John Cena

[John Cena]

Yeah

You can't help but feel it

Can't help but feel this one

Uh-huh uh yeah Excuse me for a minute while I lighten the mood

Just clap with me like the lightning do, yeah

A bit of soul food that you be bitin into

And if you feel me then I'm writin for you, uh-huh

Right now put another coat of wax on the ride

For a minute put the beef and the gats to the side

Cause this track's got a vibe to chill to

Enjoy life for 5 minutes, man it's not gon' kill you

It's okay to be hard and stay true man

But at the end of the day, we all human

This one's for you, the ones that you close to

Show some love, it's what you supposed to

Right now, forget the ends and the Benz

Pop a cold one, man toast it wit'cha real friends

Call your folks, tell 'em you tight now

Cause everything lookin pretty good right now [Chorus - sped up vocal sample]

Girl, you heal my broken heart

girl, dont you know that youve made me a happy man

girl, i love you more than you'll ever know

never in a million years will i give you up oh yeahhh [Tha Trademarc]

Right now baby, we all gon' ride

So place those things on your hips or side

The soul vibe gon' change, give way with fame

But sometimes the moral change or stay the same

Relax baby, right now you here

And sit back baby, with a round of beer

And cheer to those friends who crowded near

For those passed on in spirit they there

It's gon' be what it must, break bread wit'cha crew

If you got kids take the crust

It's all love baby, tell your girl she's strong

And whisper in her ear after dinner it's on

And take it slow baby, cause everything real

When you at family dinner y'all enjoy that meal

Thank God that you healthy and you keepin it tight

And keep your dreams lighthearted when you sleepin at night[Chorus - sped up vocal sample]

Girl, you heal my broken heart
girl, dont you know that youve made me a happy man
girl, i love you more than you'll ever know
never in a million years will i give you up oh yeahhh[John Cena]
Yeah - and right now I'm showin love to my brothers and my old man
To my girl, "Let's Get it On" like the slow jam
To everybody that I'm runnin down the road with
Y'all my family, I know that you know this
Fox, Rock, B's and Chaos
Y'all growin up with me man, true to life players
Grandma or grandpa watchin up above
Trademarc you my heart cousin, nothin but love[Tha Trademarc]
Thanks mamma, for all that you was
You a strongarm lady baby crazy with love
My sisters raised me, those are the facts
And taught me how to rebuild when the order collapsed
And right now I'm blessed no stress no less
And thanks hip-hop for givin me back focus, huh
Yeah John, what can I say?
It's all love from day one, you showed me the way[Chorus - sped up vocal sample]
Girl, you heal my broken heart
girl, dont you know that youve made me a happy man
girl, i love you more than you'll ever know
never in a million years will i give you up oh yeahhhContact: facebook/Tranquilnish
