Are You Ready

Mary Mary

La, la, la, la, la, la, la, la, la, la, la, la, la, la
La, la, la, la, la, la, la, la, la, this is what she said
I'm leavin' the ghetto, been plannin' for a while
I'm packin' up my dreams right now
Good morning to the future, good night to the past
It's gonna be a good day
Looking for the good life
The big town and the green lights
On a wing and a prayer and a one way flight
Are you ready? Are you ready?
You talk about it everyday
And, yeah, you've got a lot to say but
Are you ready? Are you ready?
Gonna take a lot of preparation
To reach your destination so
La, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
No, you can take a flight to Egypt, to Paris or Dubai
Then on to the next place in your mind
But why you wanna go so far
When it won't change who your are?
On [Incomprehensible] or the ghetto
Looking for the good life
The big town and green lights
On a wing and a prayer and a one way flight
Are you ready? Are you ready?
You talk about it everyday
And, yeah, you've got a lot to say but
Are you ready? Are you ready?
Gonna take a lot of preparation
To reach your destination so
La, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
Oh, doesn't really matter to ya
If you can get away

Don't you know that where your mind is
Is where your gonna stay
I suggest you make the best of your time
Just keep God on your mind
And I'm sure, in time you'll be ready
Are you ready?
You talk about it everyday
And yeah you've got a lot to say but
Are you ready? Are you ready?
It's gon' take a lot of preparation
To reach your destination
La, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
La, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
You gotta get it together, get it together
Everybody, everybody, come on now
Get your mind right, eh
