

# Are You Ready

## Mary Mary

La, la, la, la, la, la, la, la, la, la, la, la  
La, la, la, la, la, la, la, la, this is what she said  
I'm leavin' the ghetto, been plannin' for a while  
I'm packin' up my dreams right now  
Good morning to the future, good night to the past  
It's gonna be a good day  
Looking for the good life  
The big town and the green lights  
On a wing and a prayer and a one way flight  
Are you ready? Are you ready?  
You talk about it everyday  
And, yeah, you've got a lot to say but  
Are you ready? Are you ready?  
Gonna take a lot of preparation  
To reach your destination so  
La, la, get your mind right  
La, la, la, la, get your mind right  
La, la, la, la, get your mind right  
La, la, la, la, get your mind right  
No, you can take a flight to Egypt, to Paris or Dubai  
Then on to the next place in your mind  
But why you wanna go so far  
When it won't change who your are?  
On [Incomprehensible] or the ghetto  
Looking for the good life  
The big town and green lights  
On a wing and a prayer and a one way flight  
Are you ready? Are you ready?  
You talk about it everyday  
And, yeah, you've got a lot to say but  
Are you ready? Are you ready?  
Gonna take a lot of preparation  
To reach your destination so  
La, la, get your mind right  
La, la, la, la, get your mind right  
La, la, la, la, get your mind right  
La, la, la, la, get your mind right  
Oh, doesn't really matter to ya  
If you can get away

Don't you know that where your mind is  
Is where your gonna stay  
I suggest you make the best of your time  
Just keep God on your mind  
And I'm sure, in time you'll be ready  
Are you ready?  
You talk about it everyday  
And yeah you've got a lot to say but  
Are you ready? Are you ready?  
It's gon' take a lot of preparation  
To reach your destination  
La, la, get your mind right  
La, la, la, la, get your mind right  
La, la, la, la, get your mind right  
La, la, la, la, get your mind right  
La, la, get your mind right  
La, la, la, la, get your mind right  
La, la, la, la, get your mind right  
La, la, la, la, get your mind right  
You gotta get it together, get it together  
Everybody, everybody, come on now  
Get your mind right, eh
