

# Kid A

## Radiohead

I slip away  
I slipped on a little white lie We've got heads on sticks  
You've got ventriloquists  
We've got heads on sticks  
You've got ventriloquists Standing in the shadows at the end of my bed  
Standing in the shadows at the end of my bed  
Standing in the shadows at the end of my bed  
Standing in the shadows at the end of my bed The rats and children will follow me out of town  
The rats and children follow me out of their homes  
Come on kids
