

If I Were You (feat. Travis Tritt)

Kenny Rogers

You've got it made, you've got real love
Something you don't find every day
Someone to trust, someone to lean on
Something I would hold on to, if I were you
You've got it made, you've got no one
You don't have those strings to tie you down
You come and go free as the wind blows
I I wouldn't settle down too soon, if I were you
If I were you, I'd be satisfied
Oh, I'm sure the grass is greener on the other side
If I were you, I'd stay by her side
(I'd be running wild)
I would never leave her
That's what I would do
If I were you
If I were you, I'd be satisfied
Oh, I'm sure the grass is greener on the other side
If I were you, would I rather be
(Would I rather be)
Someone just like me?
I wouldn't change a single thing
If I were you
