

# Hot Night

Laura Branigan

Here in the night  
There's a perfume in the air  
You can almost smell the danger  
Pressed in a crowd  
You can feel the heat flow  
In the touch of every stranger We're out on the town  
And it's passion that we're after  
Keep fanning the flame  
Just a little faster It's gonna be a hot night  
We're gonna have a hot night tonight  
It's gonna be a hot night  
We won't get no sleep tonight  
Too hot, it's too hot The need in your eyes  
Hits me to the heart  
With a shot of stimulation  
A moment with me  
In a moment I will see  
The burning fascination No stopping it now  
We've got to stay in motion  
We're two-foot of fire  
Two-foot of emotion It's gonna be a hot night  
We're gonna have a hot night tonight  
It's gonna be a hot night  
We won't get no sleep tonight  
Too hot, it's too hot It's gonna be a hot night  
We're gonna have a hot night tonight  
It's gonna be a hot night  
We won't get no sleep tonight  
Too hot, it's too hot No stopping it now  
We've got to stay in motion  
We're two-foot of fire  
Two-foot of emotion It's gonna be a hot night  
We're gonna have a hot night tonight  
It's gonna be a hot night  
We won't get no sleep tonight  
Too hot, it's too hot It's gonna be a hot night  
We're gonna have a hot night tonight  
It's gonna be a hot night  
We won't get no sleep tonight

Too hot, it's too hotIt's gonna be a hot night  
We're gonna have a hot night tonight  
It's gonna be a hot night  
We won't get no sleep tonight  
Too hot, it's too hotIt's gonna be a hot night  
We're gonna have a hot night tonight  
It's gonna be a hot night
